

Notes:

1. Cabinet is acoustically and thermally insulated, and is fabricated of continuous galvanized steel, suitable for direct application of "drywall" plaster board.
2. Supply, return and drain risers are type M copper. Riser assemblies include two shut off valves inside the cabinet. Standard units include high-pressure hose kits for connection of the refrigeration chassis. The entire bottom of the unit is a drain pan, for containment of water within the unit.

UNIT NOMINAL CFM	A	MINIMUM SLEEVE SIZE	OPERATING WEIGHT LBS.
1000	52	6 x 8	250
1200	52	6 x 8	280

All dimensions in inches.

*This configuration is for units with R22 refrigerant chassis.
