

Notes:

1. The return air opening is always on the front of the unit.
2. Cabinet is acoustically and thermally insulated, and is fabricated of continuous galvanized steel, suitable for direct application of "drywall" plaster board.
3. Supply, return and drain risers are type M copper. Riser assemblies include two shut off valves inside the cabinet. Standard units include high-pressure hose kits for connection of the refrigeration chassis. The entire bottom of the unit is a drain pan, for containment of water within the unit.

UNIT SIZE	A	B	W	H	R
VI 203 VI 303 VI 403	16	17	14	36	2 1/4
VI 603 VI 803	18	20	16	38	4 1/4

All dimensions in inches.
